

# Advancing Methodological Guidance on Qualitative Longitudinal Mental Health Data

A Global Initiative for Ethical Data Sharing Practices

A Wellcome Trust Funded Initiative | Indian Institute of Public Health - Hyderabad

## About the Project

This groundbreaking initiative brings together a global learning network to co-create practical guidance for improving data sharing and access practices with Qualitative Longitudinal Mental Health (QLMH) datasets. We focus on addressing unique challenges in data integrity, ethical access, and responsible sharing of sensitive mental health information.

## Project Agenda

- Review existing QLMH datasets
- Analyze current guidelines
- Engage diverse stakeholders
- Convene expert workshops

## Who We're Seeking

- ✓ QLMH data managers
- ✓ Mental health researchers
- ✓ Clinical practitioners
- ✓ Lived experience experts
- ✓ Ethics specialists

**Note:** Preference for LMIC experts

## Time Commitment

### Initial Survey

30-45 minutes

### Online Meetings

3 hours (Sept-Dec 2025)

### Workshop

4-5 selected experts

## Why Participate?

Advance global mental health research

Recognition in publications

Global research network

Shape ethical frameworks

## Project Leadership

### Dr. Gracy Andrew

Project Lead

Indian Institute of Public Health, Hyderabad

### Alex Hutchison

Project Co-Lead

Forr Data Ltd., Scotland

### Arianna Zuanazzi

Project Co-Lead

Child Mind Institute, New York
